in just what circumstance has not yet been fully determined upon. Anything in the suggestion that property may be made public will be revealed, according to administration officials here, and foreign governments will constantly be apprised of the various steps taken by the United States. This may not take place, however, for seevral days.

President Wilson has had no direct communication either with the Huerta government or the constitutionalist authorities and he indicated to his callers today that he would welcome more information about the purpose of the constitutionalists. It was learned also that the president has not yet formally considered recognition of the beligerency of the constitutionalists, but that in-so-far as territory alone is concerned he regarded that held by the constitutionalists as strong enough in proportion to that controlled by the Huerta government to make recognition of the constitutionalist not wholly unjustifiable from a diplomatic standpoint.

Further official reports of the arrival in Mexico City of John Lind, President Wilson's personal envoy, say ample precautions were taken by the Mexican government to guard against any demonstration. Mr. and Mrs. Lind went to a hotel because the American embassy was only partly furnished.

they were agreed the administration should be allowed to carry out its work for the next few days with as little embarrassment as possible.

### WOMAN'S PAGE WHOUSE

### The Evening Chit-Chat

FEW weeks ago a two-year old boy, whose position as the grandson of St. Gaudens, the famous sculptor, made him a ligure in the world's news, got his hands on some strychnine pills and swallowed one. It was so large that it stuck in his throat, but the baby traveled over to a table and actually managed to clutch a giass of water in his little hands and wash the pill down. He died in convulsions before anything could be done. BETTER BE SURE THAN SORRY.

could be done.

I suppose some millions of mothers shuddered as they read that story and promised themselves that no such thing should ever happen to their babies.

And yet it will. Into some of those very homes the atterfible prophecy? Why, from that surest prophet of the future—the past.

I doubt if a day, surely not a week, went by in the last year in which a similar tragedy did not occur somewhere in this country.

I doubt if there is one among my readers who does not personally know at least one family which has suffered such a loss. I know of two.

In some of these cases there could be absolutely no blame attached. For instance, I know of one in which a doctor's child, who had been carefully taught not to enter his father's office, slipped in and helped himself to a large quantity of catharitic pills which were not at all poisonous, but which were latal to him because of the size of the dose.

In other cases there is a carelessness which is so bitterly punished that it excites our pity far more than our blame.

Of course all children ought to be taught not to go a favorite with the men that a

our blame.

Of course all children ought to be taught not to touch pills or anything of that sort without permission, but the best child will have his off moments, and so this training should be supplemented by unremitting care not to leave danger around.

Don't keep poisons unless you absolutely have to. When rou must, label them with some striking label, and put them on a separate shell which is unquestionably out of the reach of children, or better still, lock them up. Children have been known to reach shelves which their elders thought perfectly safe.

perfectly safe.

Nor is it poisons alone which ought to be kept out of a child's reach.

Many medicines which would be harmless taken in small doses, might be fatal if a child helped himself in wholesale fashion.

And one more caution. Never throw away a bottle with anything in it, especially poisonous. Not long ago, several children were poisoned by drinking something they found on a dump. So rinse out your bottles before you throw them away. You owe that precaution to other people's children.

# HEART and

Dear Mrs. Thompson: (1) I have an old mahogany table, which I have répainted mahogany, but the top just sticks to everything and so never looks decent. Finally I put varnish on the top but this did not help matters. Can you tell me what to put on the top so that it will have a shiny, smooth surface?

burn off all the paint and refinish it. It should never have been painted, you see.

You can buy a can of lye and apply it to the paint according to directions printed on the can. When the paint has softened, it can be easily scraped off. Then sandpaper the top of the table smooth. This is hard work, but it will have to be done. When the table top is perfectly smooth you can give it a dull oil finish. or give it a coat of the same kind of varnish you speak of, applying it very thinly and evenly and quickly, with a camel's hair brush.

(2) Take the steels out of the corset on a table, take a good stiff brush, soap and hot water with a little soda or ammonia in it. Scrub the corset on both sides, then rinse well, without wringing, and hang out in the sun to drip dry.

(3) Shields must be washed in cool water. Dissolve a little washing soda in a cup of hot water, add this to cold water, then wash the shield like you do the corset, but use a softer brush—a nall brush will do. Hang these out to drip dry, also.

(4) Get 5 cents worth of brushed quince seed at the drug store. Steep

a tablespoonful of this in boiling a shiny, smooth surface?

(2) Can you also tell me how to wash and clean corsets?

(3) How do you clean dress shields? I have tried several times, shields? I have tried several times, kid entelers. It will help the hair to but they never look clean after washing.

Dear Mrs. Thompson: We are two ambitious girls of sixteen. Much to our families' sorrow, we are both very plain looking, and if only to show them our gratitude for their kindness to us we would like to become a little more attractive. Will you please give us some suggestions? Does hairdressing affect the appearance much?

Many a lonely woman in the country would find delightful employment in raising, gathering and drying the many good herbs that used to hang from the rafters of every well-stocked kitchen fifty or a hundred years ago. The income from this source would be small, of course, until the old fashion can be revived of using a spray of the herb itself in our soups and stews rather than the powder now in use, which is only fit for stuffing and gravies.

Most important, perhaps, of all the lessons we can learn from the kitchens of Europe, we must train ourselves to PLAN AHEAD and give time enough to allow all the goodness of our materials to be used to the best advantage. It makes a great difference in the expense if we wait until the last possible moment before we decide what we will prepare for the meal.

### GAS AND ELECTRIC SERVICE STANDARD HAS BEEN CHANGED

New Rules Established by Railway
Commission Go Into Effect
Within Two Months.

New standards for gas and electric service in Wisconsin were ordered by the Wisconsin Railroad commission today which affects Janesivlle utilities, the revised set of rules superseding those established July 24, 1908. The new standards follow a public hearing given by the commission at Milwaukee on April 22, 1913, which was well attended by the representatives of municipalities, gas and electric utilities, technical societies and journals, and of the Bureau of Standards at Washington.

The suggested rules were prepared by members of the engineering staff of the railroad commission, based on a thorough study of the subject covering the five years which has elapsed since issuing the original order establishing stardards of service.

Without materially changing the standards to be furnished by the gas and electric utilities of the state, the revised rules will define somewhat differently the practices of the utilities in order to maintain those standards. The companies are given two months' time to comply.

Gas Service Rules.

The rules for gas service are detailed. Considerable attention is given to the subject of accuracy of gas service meters. The original standards for heating value are retained. The minimum, heating value must never fall below, 500, and the monthly average shall be not less than 600 British thermal units total heating value per cubic foot. No candle powers standard is considered necessary in this state, says the commission. New rules are provided for gas pressure variation. The rule on purity of gas remains unchanged. The rule requiring companies to submit monthly summaries of complaints is no longer mecessury and is dropped, but the complaint records must still be kept, and be open for public inspection.

A number of modifications are made in the rules regarding electric service. Meters which register incorrectly are prohibited, as the rule specifying that meters having an error in measurement in excess of 4 perce

pilations made monthly and annually. The new rule on request tests reads: "Each utility furnishing metered electricity serivce make a test of the accuracy of any electric meter upon request of the consumer, proided the consumer does not request such test more frequently than once in six months."

Where the consumer is not satisfied with the company's test, provision is made for referee tests to be made by an inspector sent by the commission. Fees for this test range from

sion. Fees for this test range from

There is a rule on interruptions. To avoid interruptions in service, working on lines or equipments must be done at a time when it will cause the least/inconvenience to the consumers, and those most seriously affected by such interruptions shall if possible be notified in advance. Other rules cover keeping of station records, voltage variation and voltage surveys.

### THE ATTRACTIONS OF DOMESTIC SCIENCE.

If any one thinks that women no longer take any more interest than necessary in the home and that they consider cooking a drudgery rather than an art, he should neep into the Assembly hall, any day this week after 2:30 o'clock. He will see the fol-

lowing:
A large audience of women of all ages intently listening to and watching a charming lecturer in cap and apron who is talking and working on a stage equipped as a model kitchen that would greatly clarify the whole Now and then they copy industriously a recipe which the woman on the stage gives to them. After a while, they sample with delight the goodies which the demonstrator has been prewhich the demonstrator has been pre-paring. Finally, they crowd around the stage, asking questions and seek-ing advice.

Asking what it is all about, he will

find that Miss Florence M. Peet is conducting a course in Domestic Science for The Gazette and that these terry unpopular. ence for The Gazette and that these women gather faithfully every afternoon so that they may take advantage of the knowledge imparted by an expert cook and add her original having a strike on his hands is worse than having congress there.

We have never seen such enthusigeneral intelligence of those present more remorseful than careful have been not merely a compliment to Miss Peet's magnetism and ability but a compliment to the women of Janesville themselves. For they have shown that our women are eager to make themselves the best possible home-makers and that they look upor domestic science as a work worthy of their closest study.

A HOT WEATHER QUERY. What has become of the bootjacks? asks the Christian Science Monitor. It is an interesting hot weather query. The young men of this day and generation are at a loss, perhaps, to understand the full significance of the question. They do not even know what a bootjack is, doubtless have never seen one. Even the or-nate variety that was made of iron much less the home-made article that did service behind the kitchen stove in days gone by. Like the red top boots, the coppertoed shoes, the home-made knit sock and mittens, the old wavy red tippet and the heavy shawl that did service in place of an overcoat, they have gone to the land

of yesterdays.
In 1830 there were at least 2,000,000 bootjacks in the country. By 1840 the number had increased to 3,000, 000. In 1860 it had grown to 6,000,-000. Taking into account that 1,000,-000 boot wearers had left their homes in the mean time to lead a life in which one boot was usually worked off by application of the toe of the other, thus diminishing the bootjack demand, it is quite probable that the ratio of increase was not maintained through the decade ending in 1870. But if we assume 7,000,000 families to have settled back to a normal state of existence by this time, and allow one bootjack to the family, it will be seen that a little more than forty years ago there must have been something like 7,000,000 bootjacks in the United States.

the United States. The bootjack had then reached its The bootjack had then reached its high water mark. It was the beginning of the period of the making of the West, and women and girls, as well as boys and men, wore boots occasionally or exclusively, over a large area of the national territory. Yet a change had begun to set in. Little by little the bootleg began to shorten, and as it shortened the bootlack beby little the bootleg began to shorten, and as it shortened the bootlack became less indispensable. Yet, making every allowance, there must have the bootless indispensable. Yet, making every allowance, there must have the bootless indispensable. Yet, making every allowance, there must have the bootless began to shorten, in hope when we all get to heaven, the tariff harangue will be through. But we have good reason to doubt it, no such luck for me and for you.

The Janesville Gazette been an accumulation of not less than 10,000,000 bootjacks in the country in 1880, when they began to fall rapidly into desuctude. What has

become of them?

There was a time when the hoof-jack held a prominent and honored place in every American household. It was even more necessary to the equipment of the well-regulated home than the hat rack, more necessary than the closet hook, because while the male members of the family could throw their hats and outer coats off anywhere the, removal of a pair of boots by hand was a proceeding from which the great majority of brothers, husbands and fathers instinctively shrank, while attempts to work off tight and damp boots on the rounds of chairs and tables, or between the door and the jamb, was discouraged by all good housekeepers. That the bootjacks might be more attractive to the men, they were frequently covered with Brussels carpet to match the floor, or adorned with the initials of the user in brass-headed tacks, and now and then when they took the form of bridal presents, they were nand-painted.

But where are they? What has be-come of the 10,000,000? You search for them in vain through the museums. Occasionally you come across Sworn circulation statement of The not look real. Apparently, the milof long-legged boots that did noble service for the men of the country through three-fourths of the last century, have gone to join the wigs, knee trousers and buckled shoes of an earlier time.

### WAR OR PEACE.

This diculty with Mexico comes at a very bad time for the prosperity of this nation. The democratic party have just gained control of the national government after years of sitting on the fence and watching the republican procession march by, and business interests are on the anxious seat to see what radical changes will be made. The Panama canal is about to be completed. There are differences with Japan to be settled and now comes the unfortunate difference with Mexico. President Wilson states that he will stand firm on the proposition of demanding a peaceful to respect to the proposition of demanding a peaceful to the proposition of demanding a peaceful to the proposition of the proposi ences with Japan now comes the unfortunate difference with Mexico. President Wilson states that he will stand firm on the proposition of demanding a peaceful solution of the troubled condition that exists across the border and he trusts the American people will back him up. The fire brands of the country are already mapping out extensive military and naval campaigns having the ultimate end of capturing Mexico and enforcing order, and the peaceful element trust that there will be no bloodshed. It is a question of peace or war and while all indications point to a peaceful solution of the problem still it is always safe in times of peace to prepare for war, and the United States should not be caught napping if the need for armed caught napping if the need for armed least to make of the occasionally has to make of the other. ### Heart to Heart Talks

This, of course, is on the theory that

the straight man moves. All the ethical standards in the world will hardly make a sluggard arrive. Let no young man make the mistake

of thinking that he can boodwink and outwit the universal law of things. The moral law is a most important part of this universal law.

Let no man, young or old, imagine that he can long delude even his fellow men. Day by day the intelligence of the race increases, day by day there is a growing insistence that every one play fair.

The man who said that "might makes right" was a literary crook. Lincoln stated the real law when he reversed the formula and made it read, "Right makes might."

He proved his words by his works. It was because he was right that placed Abraham Lincoln among the gigantic figures of modern times.

The consciousness of being right gives, a man nerve, backbone and confidence in himself. He knows he has solid backing. The business of the world is being

done more and more on the basis of Set forth in a glittering style.

That, somehow we all get to thinking, confidence. The moral defective is im

PACIFIC COAST HIGHWAY MEETING AT VANCOUVER

ISPECIAL TO THE GAZETTE I.—The fourth annual convention of the Pacific Highway Association met in this city today for a three days session. Delegates from Seattle, Portland, San Francisco, Los Angeles, and a number of other cities are in attendance. The association aims to secure the construction of a first-class road along the Pacific slope from as possible. Except for two short breaks in British Columbia, the highway, now stretches continuously from Hazelton, B. C., to Yuma, Ariz. During the winter large sections of the road are impassable and the association of the different communities toward an early improvement of the conditions.

gims to this now famous ground to give expression to their ideals of universal brotherhood and free religious thought in its broadest aspect.

The Bahaists want a "rapan Temple" erected as their shrine. They have selected for the site of this edifice a beautiful pine grove where the Green Acreites for years have held their outdoor meetings.

Ever since the visit of Abdul-Baha-Abbas last year, the Bahaists have been proselyting among the pilgrims of Green Acre. They have built up a rival organization, which is now strong enough, they believe, to consummate their plans, for control. They want the temple erected in time for the next visit of the great prophet. Abdul Baha. The funds for the temple are available through a legacy of \$12,000 left to the Green Acreites by Mrs. Helen /Cole of New York, and to be devoted to the upbuilding of the colony. Its terms are broad enough to be applied by the trustees for the purpose of the erection of the temple. It is planned by the Bahaists to place busts of Mahomet, Confucius, Boroaster, Budda. Christ, Comte and others about its interior. Statements of these great teachers are to be inscribed on the walls of he auditorium.

In the meantime the aged founder of Green Acre, Miss Sarah J. Farmer, is unapprised of the facts of the internal struggle among the colonists. She is a patient in a sanitarium at Portsmouth, while her affairs are being conducted by two guardians. Her intimate friends declare she would be greatly opposed to the Bahaists activities. The same persons express the belief that the Bahaists are taking advantage of Miss Farmer's illuses to promote their campaign and acquire the trusteeship of Green Acre.

Green Acre, has often been criticised by the orthodox denominations

acquire the trusteeship of Green Acre. Acre.
Green Acre has often been criticised by the orthodox denominations for its toleration and the liberal views held and expressed within its orecincts. It has been the Mecca of tens of thousands who have come here to enjoy the wide range of thought expressed at its open shrine in the famous pine grove. And in spite of the attacks of its critics the colony has grown and prospered.

Now the original colonists fear that if the Bahaists gain control of the board of trustees at the present election, all others, not, of this faith will be excluded from Green Acre, and for this reason they have conducted an active anti-Bahaist campaign to keep Green Acre as it is and has been since it was founded.

### CROPS IN WISCONSIN ARE ABOVE AVERAGE

Alfalfa Exceptional.—Tobacco Uneven—Northern Corn Crop Will Be

Best in Years.
From nearly every section of the state the state board of agriculture at Madison has received the report that crops are above the average. The crop of alfalfa will be above the average. Tobacco is said to be uneven in places, some being exceptionally good and some of it correspondingly poor.

"If frost holds off until Sept. 10," reads the report from Douglas county, "we will have the best corn crop in 25 years."

ty, "we will have the best corn crop in 25 years."
Dairying is becoming a prime fac tor, and farmers are giving more at tention to stock raising is the comment made.

Ashland county says that crops are generally above the average and that outs are especially fine. There will be a 20 percent increase in the production of cabbage in Ashland county.

Dane county reports that the binder twine plant at the state prison at Waunun appears to be giving satisfaction to the farmers of the slate. Dane county also reports that the corn stand is thin in some places because of failure to serminate.

The line of questioning had thrown her off her carefully prepared line of defense. Angry, confused, she tessed aside her useless weapons and was for the instant merely a worried and much badgered little girl,

"And," chimed in Mark, "luckily we knew how faithful you are to your employers. Here," taking a paper from a heap on the table, "is an order from your general manager, authorizing you to give us all the help in your power. Does that remove your scruples?"

For an instant she sat genuinely dumfounded. One by one her defenses were being shorn away. With a great effort she strove to rally her pitiful little forces to meet the new onslaught. "Oh, then," she broke down weakly,

"I s'pose I'd better tell you." Her surrender snapped the tension.

Blake nodded grim approval. The other listeners relaxed. Even Robertson's hard mouth softened in exultation.

"Oh, yes!" cried Wanda, her eyes brightening. "A district number. Yes. I remember that it was a district num-

"What exchange?" A further futile ransacking of the mind.

'Was it Main?' She shook her head. "Cleveland?"

"N-no." "Takoma?"

"Yes! Yes! It's all come back to me now, sir. It was Takoma. That was it. Takoma 678 Takoma!"
"678 Takoma," repeated Mark, while

Van Dyke ran a searching finger down the list he held. "You are quite sure, Miss Kelly, that it was 678 Takoma?' "Oh, yes, indeed!" Wanda assured him in eager triumph. "678 Takoma, I

remember—" "It wasn't 876 Takoma?"

"Oh, no, sir, 678." Mark glanced at Van Dyke, who shook his head. The cross-examiner's

tone grew all at once as cold as death. "You have been playing with us long enough, Miss Kelly," said he. "I let to lead us on a wild goose chase. Now, if you please, we'll get down to business!'

"Why?" asked Wanda in marveling innocence. "Wasn't that number the right one, after all?"

"No. And you knew it was not. No such number was called from this hotel.

"Oh! Then you got the duplicate slips from central? Perhaps, if you'd

let me look over them, I could-" "Could send us on the wrong track? I have no doubt you could. No, thank you. You see, we can investigate these numbers without you. It's merely a question of investigating each of

them and—" "Then," demanded Wanda, "why did you bother to ask me?"

"To save time." "Oh! And we've been saving time, have we, sir?"

"No," he returned with ominous calm, "we haven't. But we've found out exactly where you stand in the matter, Miss Kelly. We—"

Wanda alone was unconcerned. She hours at most. And before you can

Mark glowered at her in silence. Then he picked up the list that Van Dyke had just laid down.

"Many of these numbers." he said, half to himself, "can be eliminated at once. For instance, here's my own call to New York—1001 Plaza—"

"They've charged you for two calls Mark," commented Van Dyke, glanc-"I think you can," contradicted ing at the list over Robertson's shoul-

"Yes," said Mark, "they must have repeated it in copying the list. That makes two less for us to look up. We'll trace the number we want, sooner or later. Why won't you be sensible, Miss Kelly, and talk terms?"

"Because I don't like the work. It looks too rank for anyone but a statesman. I'm not to be bought for that kind of—" "I see," said Mark reflectively. "Now

let us get back to the other matter; to your interference with our wire." He hesitated, leaned across to Van Dyke and whispered. Van Dyke nodded, rose and crossed to a case tiered

"Don't rub it in," she snapped. "I'm going to lose my job. Let it go at that. A bunch of the nation's representative men have combined, in an all-night session, to throw a telephone operator out of work. And they've succeeded. We'll take that for granted. "No," she agreed, "I'll lose the blood money I could have raked in if I'd sold you the Woman's name."

'And your liberty.'

"My-my-what?" "Your liberty, Miss Kelly," repeated Mark, eying the startled girl with stormy unconcern.

"You mighty finance jugglers live so long on the razor edge of jail," she scoffed with a bravado that somehow would not ring true, "that you ought to be experts on all the stunts people can be locked up for. But this time the bluff's too thin."

Robertson did not answer at once. Indeed, he did not seem to hear. He was turning the pages of the law book before him. Presently he found what he wanted.

"Miss Kelly," he said, "as a telephone operator, you must have had your attention called to Section 641 of the Penal Code. Have you not?" "Yes," she returned defiantly, "I have."

"Then," resumed Mark in the manner of a magistrate of the old school, "you must realize that by refusing, as an operator, to transmit our message over the telephone, you broke the law."

"You have admitted in the presence of witnesses that you interfered in the it go on until I was certain you meant transmission of our message. You are

Taking with him his best "bedside" manner the new vicar set out to visit the patients in the local hospital.

In one of the wards he observed a pale young man lying on a bed heavily swathed in bandages, and looking yery, very miserable. So the vicar stopped and administered a few words of comfort.

"Never mind, my man," he remarked, "you'll soon be yourself again. Keep on smiling; that is the way in this world."

"I'll never smile again," replied the youth sadly.

weak hounders to Blodgett, or boosted high flies.

Hodgett was far inferior to Butters as he seemed to lack the dazzling speed and control of the Janesville man, but every time the locals would put men on the circuit they failed to deliver the necessary waiton. Reloit's outfield done some sparkling fielding and twice run down drives that looked good for doubles.

The first two men up for Beloit had nine halls pitched to them and six of these cut the corners enough to lessen their batting average with a strikeout.

In the first inning the Cards made a bold effort to score as Sullivan landed safely on first after the first hit of the game and was advanced to the keystone sack when Blodgett failed to locate the han for Nehr. Hill was safe on an easy grounder to short but Owens and Butters boosted high fies with the sacks packed. In the second the Moore managed to mush a tally across after Butters had hit Gharrity who went around to third when Crandall booted a grounder and failed to recover the ball in time to catch him coming. He scored on a sacrifice fly by Demarsky. Janesville was unable to see the plate and until the fourth when a scorching drive by Butters went safe and W. Burger was good for another siam. Gharrity, backstop of the Beloit Moose, is certainly good at the windmad job, as he caught in faultless style and has a deadly wing to the bases. His snap throws to the short bases caught two men and made the locals hing the sack.

Butter's manner of delivering the ball is excellent. He pitches every hall with the same motion and the batter has to hope of quessing what he is going to serve him because he give the ball a slight toss and catches it before winding up which increments the batters from seeing the position he has his fingers.

Tillie is certainly some twirler. He has not the steam of "Cuddy" but his breakers cut across the corner and grooves of the plate in a wonderful manner. He is about ripe for faster commany.

In the seventh the umps, Cook and Gharrity, showed that they knew the

Charrity, showed that they knew the game when they made Owens go back

to first when a pitched ball hit Gharrity and his brother recovered the ball in time to catch Owens going to second. Eughes made a one-handed catch of a high fly that looked brilliant, but it appeared as if he might have made an easy play of the ball and not played to the grandstand. Crandall made a bad error in the seventh when Ryan made a perfect peg to catch Gharrity at third. On the next play after the two were down Gharrity registered.

The attendance at the game was large as the K. C. picnic was held at the park and the Bower City band gave a concort between innings. The music must not have had its charms on the Janesville outfield.

The Heloit batsmen had a nice path worn in the grass and it lead from the Beloit bench to the plate where there was a deep hole from their trying to swing hard and then the path lead right back to the Beloit bench.

IN FEBRUARY AND AUGUST, THE TWO SLOWEST BUSINESS MONTHS IN THE YEAR, THE MERCHANTS OF JANESVILLE AND THE GAZETTE ADVERTISING DEPARTMENT COMBINE IN HOLDING ONE HUGE SALES DAY WHICH IS KNOWN AS DOLLAR DAY.

NEXT WEDNESDAY WILL BE THE SECOND DOLLAR DAY HELD IN JANESVILLE. THE FIRST ONE, HELD FEBRUARY 26TH, WAS THE LARGEST SINGLE DAY THE MERCHANTS EVER EXPERIENCED, NOT EVEN EXCEPTING THE CHRISTMAS HOLIDAYS. THE INTEREST AL. READY EVINCED FOR THIS DOLLAR DAY SHOULD MEAN THAT EVERY MERCHANT WILL DUPLICATE HIS EXPERIENCE OF FEBRU-

THIS EIGHT-PAGE SECTION OF THE GAZETTE CONTAINS THE BAR-GAIN ANNOUNCEMENTS OF THE STORES PARTICIPATING IN THE DOLLAR DAY MOVEMENT. YOUR CLOSEST ATTENTION TO EACH IN-DIVIDUAL ADVERTISEMENT IS REQUESTED. THE LAST LINE IN SMALL TYPE IN THE SMALLEST ADVERTISEMENT MAY CONTAIN JUST THE BARGAINS YOU ARE LOOKING FOR. DO NOT OVERLOOK A SINGLE ADVERTISEMENT.

THESE EIGHT PAGES CRAMMED FULL OF ADVVERTISING OFFERING THOUSANDS OF DOLLARS WORTH OF MERCHANDISE AT BARGAIN PRICES IS JUST ANOTHER INDICATION THAT JANESVILLE IS AN EXCEPTONAL BUSINESS CENTER.

EACH MONTH THAT PASSES FASTENS IN THE MIND OF THE BUYER,

WHO LIVES OUTSIDE OF JANESVILLE, THAT THIS CITY IS THE LOG-ICAL TRADING CENTER OF AN EXCEPTIONALLY RICH TERRITORY SURROUNDING US WITHIN A RADIUS OF 40 MILES

JANESVILLE IS COMING INTO HER OWN IN BEING THUS RECOG-NIZED. FOR YEARS THE OUT-OF-TOWN BUYER HAS BEEN COMING TO JANEVILLE TO TRADE IN GRADUALLY INCREASING NUMBERS, UNTIL NOW IT IS SECOND NATURE TO THINK OF JANESVILLE WHEN YOU THINK OF GOING SHOPPING.

JANESVILLE STOCKS ARE SECOND TO NONE; IN FACT, ONE STORE BOASTS OF BEING "THE WORLD'S LARGEST EXCLUSIVE DRY GOODS AND CARPET HOUSE," AND THE OTHER STORES IN THIS CITY ARE NOT IN THE RANKS—THEY ARE LEADERS.

"SHOPPING" AND "JANESVILLE" SHOULD BE SYNONYMOUS IN THE MIND OF EVERY PERSON WHO LIVES WITHIN FORTY MILES OF JANESVILLE. THAT IS THE OBJECT OF THIS DOLLAR DAY EDITION. THAT IS THE OBJECT OF EVERY OTHER EDITION THAT THE GA-ZETTE ADVERTISING DEPARTMENT PUTS OUT.

WHEN YOU WANT THE BEST MERCHANDISE YOUR MONEY CAN BUY; YOU WANT SERVICE UNEQUALED; WHEN YOU ARE LOOKING FOR BARGAINS; COME TO JANESVILLE.

NOW TURN TO THE NEXT SEVEN PAGES, FEAST YOUR EYES ON THE BARGAIN OFFERS. THEN FLAN TO COME TO JANESVILLE NEXT WEDESDAY WITH THE CROWDS.

The Time Keeping Qualities of a Watch

### From Main Spring to Hair Spring

between them lies the secret. The mainspring transmits the power. It must be good, of the right width, thickness and length. The wheels and pinions must be correct pitch diameter and the adenda right, if it is not, they will not transmit an equal amount of power.

THE LOCK, DROP AND DRAW of the Pallet Jewels is very important—each watch requires special adjusting of these jewels. Jewel Pin action is next to claim our attention, it is very important as it has a vast influence on the running qualities of a watch.

### The Balance Wheel and Hair Spring.

These two parts are so important and have so much to do with time-keeping qualities of a watch, that were you to print in The Gazette all that has been written, you would require the entire daily issue for the next year and I doubt very much if you could cover the subject in that time.

The master hand of the adjuster is the only thing that will make a watch run within the required limit that is prescribed by Railroad Service.

The accumulating dirt and old rancid oil is a direct cause of excessive friction and wear of the delicate parts. I make all corrections and adjust watches to positions. (ISOCHRONISM) and put in new parts when necessary. Let me examine, your watch and give you the cost of putting it in good order. I make no charge for examination.

### A\$10,000 Indemnity Policy for\$1.00

If you were absolutely assured that you could indemnity yourself against illness, or regain your health and strength, would you hesitate to spend a single, silver dollar?

HIAWATHA WATER and HIAWATHA GINGER ALE have never been flamboyantly exploited as a "cureal" notwithstanding that HIAWATHA WATER has a truly medicinal value and HIAWATHA GINGER ALE contains not only all the medicinal properties of the water but the added recognized medicinal values of Ginger Root used in the correction of stomach maladies.

It wasn't intended that this advertisement should be dignified nor have we attempted to flaunt a paragraph of medical terms to simply air an assumed knowledge of therapeutics—we want to "get to" the man who isn't enoying life from the moment he takes his morning dip until he turns out the glim at night.

Don't grunt with disgust when we tell you to DRINK MORE WATER; it's a pretty bum joke about water rusting your system. Nature has been curing millions of people for centuries who never shook hands with a doctor. A week or two ago a couple of fakirs were on our streets selling "snake oil" (?) and didn't they sell hundreds of bottles to people right here—and why? Just because they awakened enough faith in these crodulous folks who left their good money and went home fondly clasping their precious bottle of snake oil.

Now right here at your door, at HIAWATHA SPRINGS, flows one of the most wonderful waters known to the world. This isn't just our 'say-so' but is vouched for by the world's most famous chemists and analysts. Before you pass judgment, spend the time and money we have in satisfying ourselves that this is so. Then if you are convinced we won't need to tell you to unwind the strings of that leather wallet, dig up a dollar and spend it for 'better health.' If you aren't convinced, go buy a case, follow this with another until you have taken five and if you really, truly don't feel better, come to us and we will give you back every cent you have paid for those five cases.

This appeal isn't to you who are already using HIAWATHA; we notice you keep right on ordering and smiling, nor is it for the man who buys a case and drinks it irregu-arly—if you want to receive benefit from anything, be regular about it.

If you have children who have that candy habit, switch them over to HIAWATHA GINGER ALE. It satisfies that taste for sweets and adds to the health of the child. Nothing injurious to the most delicate system is contained therein.

For parties, at the tea table, for the afternoon caller, at the club—anywhere, HIAWATHA GINGER ALE is par excellence. A score of dainty drinks may be prepared right in the home from both HIAWATHA SPARKLING WATER and GINGER ALE; we will gladly give you the recipe.

Now don't make a dumping ground of your stomach and expect to feel ike a boy out of school; take good care

of your system, use discretion in the selection of your drinkables and eatables; say this over and remember it, "Eat Right, DRINK Right and You Won't Have to Dose."

HIAWATHA is a product of Nature and luckily for us all, the spring is located at Janesville. We are shipping

ON DOLLAR DAY WE WILL SELL A CASE OF HIAWATHA NATURAL WATER (half gallons) OR A CASE OF QUARTS HIAWATHA GINGER ALE OR CARBONATED WATER FOR \$1.00,—the only restriction being that it is necessary to phone us your order (Bell phone 12; Rock County, Black 1220) and we will deliver it through your grocer.

Get a grip on yourself; August "dog-days" are like the balmy days of May if you feel right, — HIAWATHA will MAKE you feel right; it gives Vim and Life.
